

GRACE ROBINSON & COMPANY HOSTS WORLD TRAVELING EXHIBITION

Rowan 30th Anniversary Exhibition to Tour U.S. and Canada

Grace Robinson & Company announces today that its Freeport facility will host Rowan's 30th Anniversary Exhibition of hand knitted garments in its first East Coast showing in North America.

Rowan is the UK's leading premium yarn company, and the Exhibition will showcase examples of vintage designer garments representing three decades of success and growth in the hand knitting industry. This touring exhibition has already appeared in several European countries as well as in Australia. The Freeport, Maine showing is the first of nine venues in a year-long North American tour organized by Rowan's distributor, Westminster Fibers, Inc. The Exhibition will feature a selection of iconic designs, and displays of the key designers who have helped create the individuality that is the Rowan brand.

The past 30 years have seen Rowan develop from life in a small office above a grocery store into an internationally recognized centre of hand knitting excellence. With the launching of its eco-responsible Purelife brand last year, Rowan has also shown that the company is as dedicated to achieving sustainability within the industry as it is to achieving design acclaim.

Grace Robinson & Company, the only full-service Rowan Stockist in Maine, is located at 208 U.S. Route One, Freeport, Maine. The Exhibition will proudly be shown from July 31st to August 16th, 2009.

Rowan's North American Distributor, Westminster Fibers, is located in Nashua, NH from where it supplies more than 1,000 independent knitting stores throughout the United States and Canada.
